EXPERIENCE

GieUnifrais(France) - *Full Stack Web Developer*

November 2022 - August 2023

- Designed a store record keeping website called Portail.
- I created a hierarchical system of users with "Superviseurs" managing each store values.
- Hosted the whole web app on VPS

Devifix - *Full Stack Web Developer*

November 2022 - January 2023

-
- Designed and Developed "Devifix": an order platform that allows users to connect with each other, create offers and order offers. The web application was built on Django. The frontend was created in HTML5, CSS3, JS and SASS.
 - Developed web application back-end components and communicated with clients to identify their needs and goals.
 - Created a user verification system with email OTP. The site is User friendly and made for desktop only.
 - Maintained large databases, configured servers and handled site hosting.

Hydrus Creations- *Frontend Developer*

May 2022 - Present

- Designs all frontend components
- Uses React to create interactive UI
- Trained and supervised new employees and provided technical support to clients and coworkers.
